GENERAL CONTRACTORS

Project: Guyed Antenna Tower Removal, Hampshire RCAG Site, Hampshire, Illinois
Client: Federal Aviation Administration, Chicago District Technical Support Center
Contract No. DTFACN-16-C-00214
Completion Date: 11/3/2016, 100% Complete

The Federal Aviation Administration awarded a contract to DW Mertzke General Contractors to perform demolition and removal of three 75' high guyed steel towers that were no longer in use at the Hampshire RCAG site in Hampshire, IL. In addition to the removal of the towers, foundations were removed to below grade, cables and power cords were removed, building penetrations were repaired, new aggregate surfacing was applied to the parking areas and the entire site was seeded and restored. D.W. Mertzke self-performed 100% of the total contract and completed ahead of schedule.
